SMART FOOD SOLUTIONS

www.expofoodtech.com

EXPLORE THE SMART SOLUTIONS TO BE AT THE FOREFRONT OF THE FOOD REVOLUTION

At Food 4 Future - Expo FoodTech, we are not just observing the future, we are creating it. This year's event is more than just an exhibition, it's a transformative journey to redefine the food industry as we know. Welcome to the Future of Food: A Journey Awaits.

Imagine a world where food is not just about sustenance, but about sustainability, innovation, and the future. A world where every bite tells a story of cutting-edge technology, groundbreaking science, and a commitment to a healthier planet. This is the vision behind Food 4 Future - Expo FoodTech.

The rise of plant-based innovations, the sustainable practices for a better tomorrow, the digital transformation of food production, the personalization and the consumer experience, health and wellness as the new priority, the food safety and quality and the emergence of new food sources are the trends that will mark the future of the food industry. Food 4 Future is where these trends come to life, where the brightest minds in the industry gather to share, learn and innovate and where smart solutions, robotics and artificial vision systems and the application of technologies are at the forefront of the food revolution. This is not just an event; it's a movement towards a more automatized and a better future for food. A future that is sustainable, innovative, and inclusive.

***Be part of this transformative journey.
Join us at Food 4 Future - Expo FoodTech and
witness firsthand the future of food unfold.***

FOODTECH 6.0: KEY FACTS AND FIGURES FOR A SMARTER FOOD SYSTEM

1. The Plant-Based Revolution:

-The global plant-based food market is expected to reach \$162 billion by 2030. This surge is driven by increasing consumer demand for sustainable and health-conscious alternatives.

-Sales of plant-based meat alone grew by 27% in 2020 and are projected to continue rising, with a market value estimated at \$7.4 billion by 2025.

2. Sustainability as a Business Imperative:

-The food and beverage sector accounts for about 30% of global greenhouse gas emissions. As a response, there is a growing push towards sustainable practices, with the goal to reduce emissions by 50% by 2030 in line with global climate targets.

-Approximately 1.3 billion tons of food are wasted globally each year, representing one-third of all food produced. Technologies that reduce food waste and promote circular economy practices could save the global economy \$700 billion annually.

3. Digital Transformation of the Food Industry:

- The global market for precision agriculture, including AI-driven farming and data analytics, is projected to reach \$12.9 billion by 2027.

- The blockchain food traceability market is expected to grow from \$133 million in 2020 to \$1.4 billion by 2028.

4. Personalized Nutrition:

- The market for personalized nutrition, driven by advances in AI and genomics, is projected to reach \$11.5 billion by 2026. This growth reflects increasing consumer interest in customized health solutions.

- 80% of consumers are more likely to purchase from a brand that offers personalized experiences.

5. Health and Wellness Focus

- The global market for functional foods, which are enriched with health benefits beyond basic nutrition, is expected to grow from \$177 billion in 2021 to \$267 billion by 2027.

- Consumers are increasingly seeking foods that support immune health, with 75% of global consumers stating that they actively seek ingredients that boost their immune systems.

6. Advances in Food Safety:

-Global food safety testing is expected to grow from \$19.2 billion in 2020 to \$24.6 billion by 2025. This growth is driven by consumer demand for safe, high-quality food products.

- The adoption of rapid microbiological testing methods in food safety is expected to increase by 10% annually, enhancing the industry's ability to detect and respond to foodborne pathogens quickly.

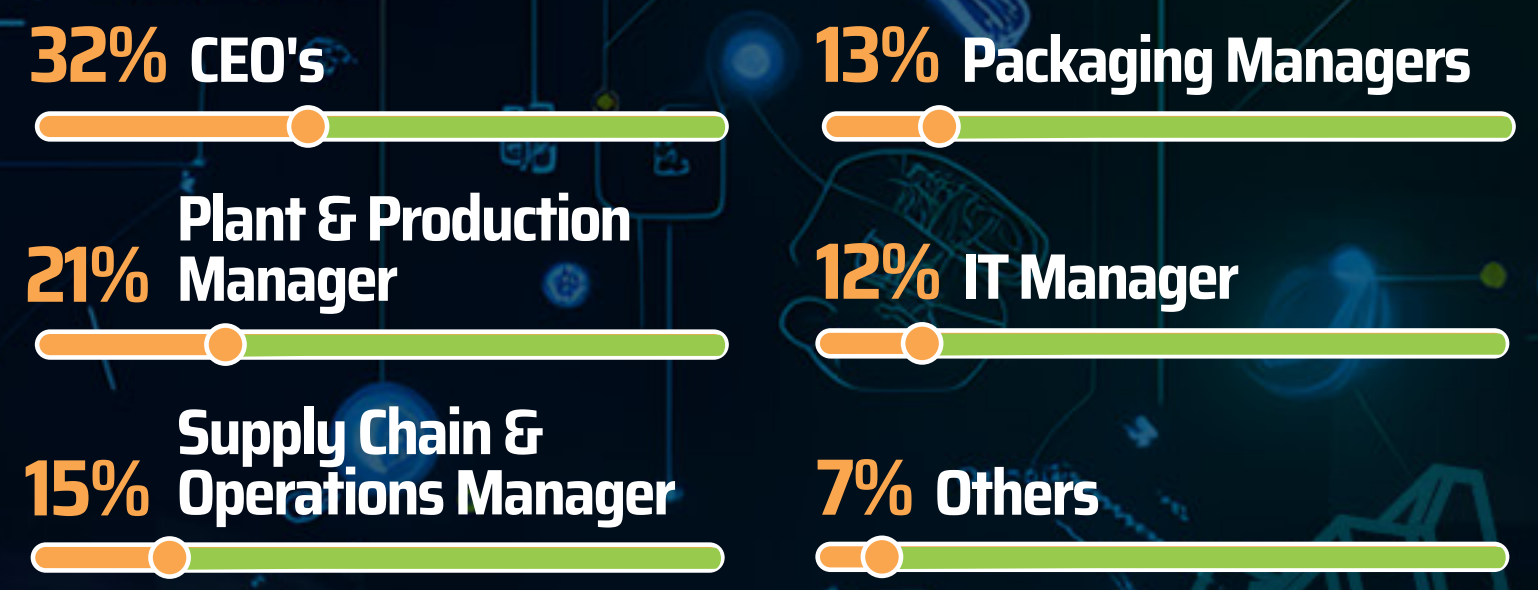

7. Emergence of Novel Food Sources

-The market for alternative proteins, including lab-grown meat, insects, and algae, is projected to reach \$290 billion by 2035, driven by the need to feed a growing population sustainably.

- Edible insect farming, an emerging industry, is expected to grow at a CAGR of 26.5% from 2020 to 2027, with a potential market size of \$4.63 billion by 2027.

BILBAO FOODTECH WORLD CAPITAL

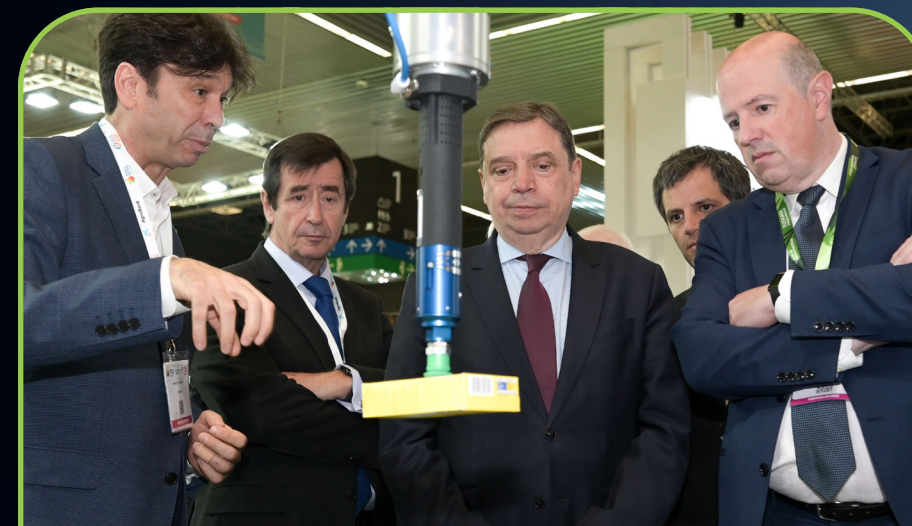

Bilbao will host Food 4 Future, the most innovative event to transform the food and beverage industry through cutting-edge technology, smart solutions and automation systems. This is your opportunity to be at the forefront of the food revolution. To be a change maker. To contribute to a future where food technology, innovation, and sustainability go hand in hand. Join us at Food 4 Future - Expo FoodTech, and let's shape the future of food together.

Food 4 Future - Expo FoodTech offers a comprehensive agenda packed with engaging and business-focused activities. This coming May, Expo FoodTech will be co-located with PICK&PACK Expo, the leading event for innovation in packaging and logistics for the food industry. Don't miss the chance to participate in this exciting edition, featuring unparalleled networking opportunities and new events, such as the **Packaging 4.0 Congress** and the **European Logistics Summit**.

Join us to connect with industry leaders, discover cutting-edge solutions, and shape the future of the food sector!

AN EVENT DEDICATED ONLY TO INNOVATIVE COMPANIES

Participate in the leading event on Food Technology Innovation, and connect with your target to become the leader that guides companies in the digital transformation of their businesses, and the improvement of their competitiveness.

If you are one of them, here we present 5 powerful reasons not to miss this great opportunity for your business:

PARTICIPATION OPTIONS

The best option is to show your leadership in the sector and stand out from the competition. Locate your booth in the best area of the expo, gain the maximum visibility, participate in the congress, and invite your best clients and prospects, amongst many more activities.

Present your products and solutions to thousands of potential buyers in the expo zone. Choose between Premium Zone to enjoy the major traffic to your booth, or Business Zone to economize your investment.

We know how difficult beginnings are. That is why we offer a "Turnkey Pack" so you can participate in the most innovative event in the sector, with the minimum investment.
