

The latest trends and technologies for the food industry will meet at F4F - Expo Foodtech and Pick&Pack 2025

Expo Foodtech and Pick&Pack open registration for the largest food technology trade fair, which will take place from May 13 to 15 in Bilbao, Spain

More than 320 experts and 250 exhibiting firms will present solutions in automation, robotics, digitalization and sustainability for food production and distribution

Madrid, March 12, 2025 – [F4F - Expo Foodtech 2025](#) and [Pick&Pack for Food Industry](#) have opened registration for their next edition, which will take place simultaneously **from May 13 to 15 in Bilbao, Spain**. The Big Tech Week for the Food Industry will bring together **more than 8,000 professionals** from the food and beverage sector to discover solutions and strategies to improve the productivity, efficiency and sustainability of their production plants.

To this end, **more than 250 exhibiting firms** will showcase the latest innovations applied to the food industry such as automation and robotics, solutions for food processing, industry 4.0 technologies, as well as innovations for food logistics and packaging. Thus, this new edition of Expo Foodtech will focus on the **latest technological trends in food processing**, highlighting the impact of automation, advanced robotics and artificial intelligence on the efficiency of production centers. Innovations in intelligent processing, digitalization and quality control will also be addressed, as well as solutions designed to reduce food waste and ensure greater safety in product processing. In addition, tools for **decarbonization and energy efficiency in production plants** will be presented, to move towards a more sustainable and profitable industry model.

In this line, the new edition of the [Food 4 Future World Summit](#), held within the framework of Expo Foodtech, will bring together **more than 320 international experts** who will share successful **industrial experiences** to inspire other professionals in the food and beverage sector to implement these new technologies. They will also address **the challenges facing the industry in the current economic and geopolitical context**, such as the impact of inflation on production costs and tariffs, the dominance of the retail brand, or the change in consumer behavior and demands.

The congress will also host different forums dedicated to each industry segment (horticulture, beverages, meat, dairy, fisheries, and new ingredients), as well as specific summits for different professional profiles (CEOs, CIOs, Plant Managers, operations managers, purchasing managers and R&D managers). The event will also hold the [Packaging and Logistics 4.0 Congress](#), which will emphasize the latest solutions in packaging and food logistics: from sustainable and intelligent materials for packaging to the implementation of technologies such as robotics, vision and artificial intelligence applied to the supply chain for greater traceability, reduction of operating costs and optimization of logistics flows in production and distribution centers.

In addition, the event will hold the **Foodtech Nation European Summit**, a summit of European regions pioneers in food technology to share their innovation and digitization strategies, and the **Foodtech Startup Forum**, which will bring together the most innovative startups with solutions for the food industry, that will present their projects to leading companies in the sector and investors.

About Food 4 Future – Expo Foodtech (May 13th-15th, 2025, BEC-Bilbao, Spain): is the innovation event for professionals from the entire food industry value chain. For three days, F4F - Expo Foodtech will bring together, at Bilbao Exhibition Centre (BEC), more than 8,000 food industry professionals and 250 exhibiting firms to present the latest solutions in foodtech, robotics and automation, processing and packaging machinery for the different segments of the food industry, as well as food safety and food science. In addition, it will host the Food 4 Future World Summit, the largest European congress in which to discover the latest trends, success stories and tools to transform the food and beverage industry from more than 450 international experts. F4F - Expo Foodtech is organized by NEBEXT and AZTI. This year, F4F - Expo Foodtech 2025 will be held simultaneously with [Pick&Pack for Food Industry](#), the only event in Spain specialized in packaging and logistics solutions for the food industry.
